CHANGES ARE MADE IN SUGAR SHIPPING PLANS

Vessels That Were To Go By Way of Canal Diverted-May Depend On Slow Ships

Honolulu shipping men believe that by the first of March there will be calling at this part no American owned steamers, now engaged in the coastwise trade either along the Pacific Coast, between the mainland and Hawaii, or in the Pacific Coast and South Amer ican trade, of over 2500 tons dead weight entrying capacity.

This belief is based on the despatch published vestering morning by The Advert ser which stated that the Linit ed States Shipping Board intended be fore the end of the month to com mandeer modifier making fors of ship joing from the Pacific constains trade for use in the Atlantic in transporting supplies and troops to Europe.

The desputes added that this decis

ion had been reached by the shipping board and formally approved by the President. Chairman Harley's an nouncement slowing that the adminis tration has decoted to require the h consing of all imports and the climinat ing of all non-essentials.

May Hit Hawaii Hard

As Hawait is mostly served by coast wise shipping, it is almost certain that all the larger steamers now in this trade will be taken over by the gov erament and diverted to the govern ment use in the Atlantic.

If this is done Henofulu, Kahului and Hilo will lose the remainder of the Matson Navigation Company fleet, in eluding the two Parific Coast steamers President and Governor, which were turned over to this steamship company after the Matsonia, Wilhelmina Maui, the big est ships of the fleet. were taken by the government a few months ago.

Four Matson Steamers

There are four steamers of the orig inal Matson fleet remaining in the Pacific, the Laterpose, for many years on the Hilo ran the Larline, the Mn non and the livades all of which are well over the required 2500 tons dead weight carrying capacity, and capable of making tacke knots or more which is essential for any vessels op erated in the submarine zones of the Atlantic.

When E. D. Tenney, president of the Matson Navigation Company, was ask ed if he thought these steamers, and the Governor and President would be taken to the Atlantic by the govern ment, he said

I am very nough afraid such will be the case." He explained, though that he had no direct information either from San Prancisco or Washing ton as to the intention of the shipping board, other than what he had read in

BIG AFTERNOON FOOT-WORK DRAWS MANY SPECTATORS

Punahou Takes Interscholastic Relays-Manoa School Second

School lone entry, won the big tenmile race yesterday afternoon. William H. Meinecke, No. 30, teacher at the Territorial Normal School and running unattached, won second place, and Bert Shannon No. 36, of the Thirty-second Infantry of Schofield Barracks, finished in third place.

Teregawa's time was one hour, four ninutes and four-fifths of a second; Meinecke's one hour, four minutes and ixteen and four-fifths seconds and hannon's one bour, four minutes and wenty three and four-fifths seconds Considering the length of the race the finish was close enough between these three place men to satisfy even the most exciting. Teregawa led from the very start and he and Shannon en tered Moiliili Field abreast of each They ran several laps together around the track until Shannon be gan to drop gradually to the rear and Meinecke lessened the distance first between him and Shannon and later between him and Teregawa. Meinecke was less than half a lap behind Tere
